

MADE4U EYEGLASSES

CONSUMER GOODS | Fashion

Application type:

Final Part: Customized

Material:

HP 3D HR PA 12

Made4U offers 100% personalized eyeglasses that adapt perfectly to each customer's facial features while maintaining their original frame design.

Application benefits:

Better comfort

- The frame is manufactured according to each customer's unique facial features, resulting in a perfectly fitted pair of glasses that will always stay in place.
- The material used is super light – you won't even know you're wearing them!
- The nasal section is adapted to your nose.
- The temple pieces and earpieces are manufactured according to the position of your ears.

Improved vision

- All optical measurements are considered based on the position of your pupils in relation to the wear position of your personalized glasses.
